The suits at law for the possession of these taxes, which are also claimed by the City of Laconia, were tried in July last, before Hon. Isaac W. Smith as referee, and the reserved cases carried to the full bench of the supreme court for decision upon the law points raised, the construction of certain clauses in the Laconia city charter being involved in the proceedings. Briefs for the plaintiff were submitted by the town's counsel in December and the whole matter is still pending.

The suits brought just previous to the last annual meeting by Jewell & Stone, to recover for services rendered in the old Lake Company tax cases, and of J. C. Moore for rent, and for labor on the highway in 1893, were compromised on the best terms obtainable.

Aside from the collectors' cases above mentioned the town is not involved in any law suits at the present time.

The \$2,000.00 of "old town bills," reported as on file in the last annual report, have nearly all been disposed of. Some have been paid in full; some paid in part, the balance being due from the city; some compromised with the parties, and some disallowed and withdrawn, the whole amount of the payments being \$1,405.87. There are bills of this class now on file upon which the amount claimed is \$90.77, which for various reasons have not yet been settled and upon which there is probably a small sum due.

No appropriation for the payment of these bills having been made, notes to the amount of \$900.00 were issued to secure funds for their payment. The assets of the town are \$243.00 in excess of last year.

Bills to the amount of \$6.00 (six), presented since the books were closed, have been placed on file. Otherwise, so far as your selectmen are aware, the bills of the town are all paid to date.

Respectfully submitted,

GEORGE W. MORRILL, Treasurer.

Library Report.

To the Citizens of the Town of Gilford:

The trustees again take pleasure in reporting an increasing interest in the library. The number of borrowers has increased from 114 to 202 the past year. The records kept by the librarian show that 2,452 books have been loaned since last report, divided as follows: Fiction, 2,139; history, 111; general literature, 96; travels, 47; art and natural history, 19; biography, 18; poetry, 8; regimental history, 6; farm and home, 8.

The library contains at the present time 365 volumes, an increase of 133 since last report, 114 of which have been purchased with the money appropriated by the town, and 19 donated by citizens. A complete catalogue of all the books in the library has been prepared and is in the hands of the printer, and will be for sale at an early date.

School Report.

To the citizens of the town of Gilford the School Board respectfully submits the following report :

In accordance with a law passed at the last session of the state legislature requiring school reports to be rendered to Oct. 1 annually, the following report gives a resumé of the school work for but one term of the last year. The financial statement, however, is given to Feb. 15, as heretofore.

There have been maintained during the year ten schools, with two terms of ten weeks each in every school. Also according to the vote of the district one term (ten weeks) of high school. It is not necessary to mention each school or teacher in detail. No other public servants of the town are annually complimented or discredited by published personal remarks. We have endeavored to secure faithful and competent teachers and claim reasonable success for our schools the past year.

Too many children leave school for trivial causes and are too often upheld by their parents. We would say that parents should never listen to evil reports of the school from their children. There is no surer way of injuring the school and ruining the child than by encouraging him in the pernicious habit of tattling. It is the duty of parents to send their children to school and to have them regular and punctual in their attendance.

The number of scholars in town is continually decreasing and the question confronts us of having many small schools or as few as is possible with distance to overcome. There is but little difference in the expense of supporting a small school or one of reasonable size and it is probable that an attempt will be made to consolidate some of the schools during the coming year.

The \$75 raised for general repairs has been expended by re-shingling the houses in No. 4 and in No. 5, and by making general repairs in No. 1 and in No. 9. The board would call your attention to the seats in house No. 5 and in house No. 3. Here the old fashioned benches still remain, not only a discomfort and an injury to the scholars, but also a disgrace to the town. We hope that enough money will be raised the coming year to place modern seats in both these houses.

In conclusion, the board would remind the parents and citizens that the prosperity of our schools depends largely upon the interest they take in them. They urge upon one and all to visit the schools more frequently as encouragement to pupils and teachers. Appended are the usual tables for the year.
